PROFESSIONAL SUMMARY

Computer Science student and aspiring frontend/mobile developer with hands-on experience building responsive web interfaces using HTML, CSS, JavaScript, and React. Familiar with Git and GitHub workflows and developing skills in React. Seeking a React Native Developer Internship to gain professional experience, contribute to real-world projects, and grow through mentorship and collaborative development.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript, React
Tools	Git, GitHub

EDUCATION

Associate Degree in Computer Science (ADP-CS)

Virtual University of Pakistan • Expected Completion: 2028

FEATURED PROJECT

Spendly (Personal Finance Dashboard)

HTML5, Tailwind CSS, JavaScript (ES6+), GSAP, LocalStorage

- Interactive financial tracker enabling real-time calculation of balances, income, and expenses using JavaScript array methods.
- Implemented dynamic CRUD functionality with custom array filtering and persistent browser localStorage.
- Designed a responsive glassmorphism interface with smooth scroll-driven animations and custom cursor interactions using GSAP ScrollTrigger.

Mart-O | E-Commerce Mini Web App

React.js, React Router, Tailwind CSS, Styled-Components, REST API

- Developed a dynamic single-page e-commerce storefront leveraging React Router DOM for client-side routing and seamless page navigation.
- Integrated external REST APIs (DummyJSON) to dynamically fetch, parse, and render product listings, detailed view pages, and review collections.
- Engineered robust state management handling asynchronous fetch lifecycles, full-page loading indicators, and custom SVG error boundaries.

Wanderlust – Tour Booking Platform

React.js, React Router v6, Context API, Tailwind CSS, LocalStorage API

- Built a responsive React and Tailwind CSS tour booking app using React Router v6 for smooth single-page navigation.
- Integrated Context API and LocalStorage to manage global booking state and persist user reservations across sessions.
- Designed dynamic booking modals with real-time price calculations, automated form handling, and reservation deletion workflows.

ADDITIONAL INFORMATION

Professional Experience: No professional experience yet. Actively building practical projects and developing frontend development skills.
